LETTER OF APPRECIATION

As you are well aware, the flood of '95 caused a lot of damage to the Wastewater Treatment Plant in the River Valley. Due to the efforts of certain people and businesses, we were able to prevent a major environmental impact.

Southern Rewind and its staff helped us out in a tremendous way. By putting your staff on around the clock, picking up and delivering our motors, the plant process was back up and running as the waters were still receding. Your extra effort allowed us to not add to any further environmental damage, which benefits us all.

By showing us that you and your staff can handle extremely high volumes of work in short periods of time, we look forward to dealing with you in the future.

Please thank all your staff involved in helping us recover so quickly.

Thank you,

A handwritten signature in black ink, appearing to read "Harry Herasemluk", written over a horizontal line.

Harry Herasemluk
Plant Electrician
